PROFILE

Young front end developer, proactive, self taught in five musical instruments, with aims to grow professionally and make use of the knowledge acquired in Co-derhouse bootcamps mentioned above. I'm truly eager to start my professional career in the world of IT. I'm constantly learning new dev tools, and I have a great ability to work in teams.

PROFESSIONAL BACKGROUND

- COOPERAR ++ - since September 2022
Development and UI Design for a news website from Buenos Aires
- My main task was to develop a stats dashboard for my clients landing page, using VueJS and Tailwind - May 2022
- Sales of supplies for air conditioning for SIPE (local business) - from 2017 to 2019
My main task was to organize and to write down an inventory, and to talk the costumers.
I used Excel and Google Docs for the most part of it.
- Freelance musician - from 2011 to 2021
I worked in many areas within the industry, such as: studio musician for hire, music teacher and bass instructor, professor of music theory, jazz, classical and latin music, artistic producer, and executive producer.
- Administrative job for Ingenieras Volpe (Buenos Aires Autonomous City - Phone: +541140458370) - from October 2009 to March 2010
My role here was to deliver and retrieve documentation from the Secretary of Industry, and organize all of it using mainly Excel.
